

HP StorageWorks Solutions for Microsoft® Exchange Server

TRANSFORM

The economics of messaging

- Approximately 57,000,000 mailboxes are expected to upgrade by 2012
- 75% of those migrating will change or upgrade their storage

See how HP gives Exchange customers storage flexibility and helps reducing messaging costs

HP StorageWorks offers a range of solutions to address the specific challenges present in your Exchange environment by helping you converge your infrastructure and control costs.

Discover how HP StorageWorks Solutions for Microsoft Exchange can benefit you in management efficiency, improved performance, higher levels of capacity utilization and energy savings and help you run your business more efficiently, reduce costs and ultimately become more competitive.

<div>Exchange Appliance</div>		<p>HP E5000 Messaging System</p> <p>Built as a turnkey solution that can be up and running in a few hours versus days, the HP E5000 Messaging System delivers large mailbox sizes, an improved level of TCO when compared to traditional Exchange platforms, and dramatically simplified design and installation - all optimized and pre-configured around best practices from Microsoft and HP.</p>
<div>Dedicated Storage</div>	<div>DAS</div>	<p>HP ProLiant Servers with DAS</p> <p>The most flexible and efficient choice of servers and storage for a custom Microsoft Exchange solution with the lowest possible capital cost.</p>
	<div>DAS for Blades</div>	<p>HP BladeSystem & MDS600</p> <p>The HP StorageWorks MDS600 offers high-density, low-cost DAS for HP ProLiant or BladeSystem servers, combining the simplicity and cost-effectiveness of DAS without sacrificing flexibility or performance, thus making it an ideal solution for large Exchange deployments.</p>
<div>Shared Storage</div>		<p>HP P2000 HP P4000 HP P6000</p> <p>Proven for blade servers, virtual servers, client virtualization, database, email, and business applications, HP SANs offer a pay-as-you-grow, all-inclusive pricing model optimized for Microsoft applications. With intuitive storage management, HP SANs are perfect to help get Exchange data growth under control.</p>
